

EXTENSIVE DÉCOR GLASS OPTIONS IN ARCHITECTURAL SPACES.

# About us

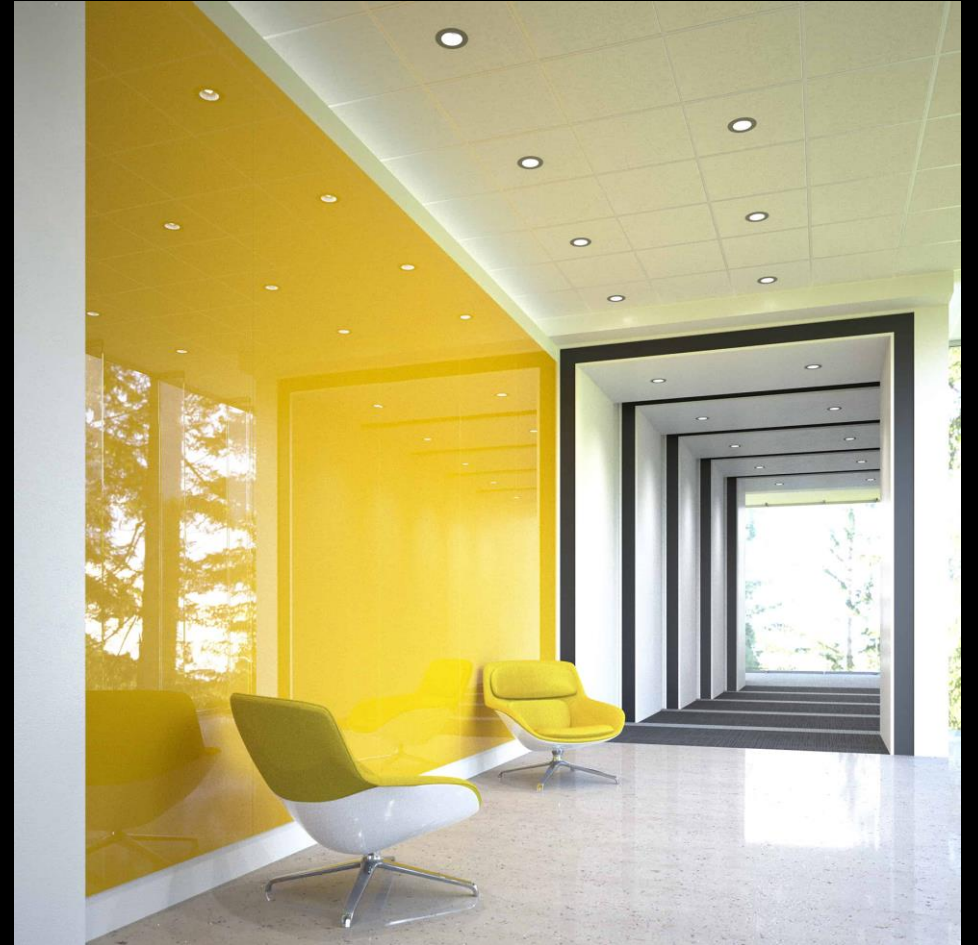

# Glass: Functions + Aesthetics

Our Glass Surfaces portray unlimited creative expression. Offering a robust visual spectacle for walls, columns, elevator interiors and more, they're as diverse as the applications for which they're used and can be tailored to the needs of today's public spaces.

# Form, Reason, Emotion

Glass as a material, allows both technical experimentation and aesthetic research, and the passion for glass drives the team at Form5  
Glass between these two concepts.

# Efficiency In Aesthetics

- **Fully Automated processes:** All Form5 Glasses are factory produced. A very high percentage of process automation ensures the best consistency square feet after square feet.
- **Focus on Customer:** From day one, it's always been about the client experience – we don't want to be liked by our clients; we need to be loved. This is our mantra. We march to our own beat, focused on our clients.
- **Efforts we put in:** The Form5 Team is fueled to go an extra mile for every client. This is who we are. We are proud to share that 80% of our business comes from repeat clients and this speaks volumes of the high level of trust our dear clients place in us.
- **Eye for detail:** Our team comprises of some of the best technical team, creative team and people with decades of experience in spotting the fast changing dynamics in terms of choice, functions and aesthetics in the Indian industry. We are up to speed. Integrate and innovate is our mantra.

# MyLab Custom Colours

- Just as the name suggests, MyLab Custom Colour gives customers creative freedom in choosing and designing their own colour. Available online for registered clients, this service lets your imagination go wild when customising and matching your design requirements or corporate identity. It's as easy as 1, 2, and 3. With this special tool, you can now order MyLab glass in the colour of your choice (minimum volumes are 50 m<sup>2</sup>).

# Colourbean Laminated Glass

- Architectural design - a shade better
- First, there was light. Now, there is color. With Colourbean® color laminated glass, you can showcase your glazing designs in a whole spectrum of choices. And by doing so, you add more than color to glass. You give your project brilliance, beauty, wonder, and utility—all the qualities color glazing imparts to inspired architecture.

# Colourbean Laminated Glass

# Colourbean Laminated Glass

# Patterned Glass

Wrapped up in a range of textures, our patterned glass delicately balances translucency and privacy. These decorative patterned glass products feature a design and a texture printed into the surface on one or both sides of a clear glass sheet. Perfect for doors, showers and meeting rooms where you can't see through but light is still able to enter.

With a range of geometric, stylish, classical, contemporary and unique patterns (also available with Colourbean colours) and available in a wide range of sizes, dimensions and thicknesses, choice is the key word here.
